FINAL ACTION

1. The applicant's response (filed 04 OCT 06) to the Office Action has been entered. Following the entry of the claim amendment(s), **Claim(s) 1-25, 29-32** is/are pending with Claims 25-26. Rejections and/or objections not reiterated from the previous office action are hereby withdrawn. The following rejections and/or objections are either newly applied or reiterated. They constitute the complete set presently being applied to the instant application.

SEQUENCE RULES

2. This application now complies with the sequence rules and the sequences have been entered by the Scientific and Technical Information Center.

35 USC § 102

3. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that may form the basis for rejections set forth in this Office action:

A person shall be entitled to a patent unless --

(a) the invention was known or used by others in this country, or patented or described in a printed publication in this or a foreign country, before the invention thereof by the applicant for a patent.

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

or

(e) the invention was described in a patent granted on an application for patent by another filed in the United States before the invention thereof by the applicant for patent, or on an international application by another who has fulfilled the requirements of paragraphs (1), (2), and (4) of section 371(c) of this title before the invention thereof by the applicant for patent.

Art Unit: 1634

4. The changes made to 35 U.S.C. 102(e) by the American Inventors Protection Act of 1999 (AIPA) and the Intellectual Property and High Technology Technical Amendments Act of 2002 do not apply when the reference is a U.S. patent resulting directly or indirectly from an international application filed before November 29, 2000. Therefore, the prior art date of the reference is determined under 35 U.S.C. 102(e) prior to the amendment by the AIPA (pre-AIPA 35 U.S.C. 102(e)).

Claim Rejections under 35 USC § 102

5. **Claim(s) 24** is/are rejected under 35 U.S.C. 102(b) as being anticipated by Backman et al. [US 5,516,663 (1996)].

Claim 24 is drawn to a kit comprising an AP site probe comprising an oligonucleotide **NA** that hybridizes to the target nucleic acid and a functional tail **R** comprising a detectable reporter group, said functional tail **R** attached via a phosphodiester bond of a phosphate group to the 3' terminal nucleotide of the **NA**

Backman et al. teach a kit comprising an AP site probe as set forth in Claim 24. Note especially Figure 1 and Claim 30 in Columns 60-61. Referring to Figure 1, note that the A oligo comprises a functional tail (i.e. the -xCGCG). Backman et al. teach that this tail may be labeled and detected upon release (by an AP endonuclease) from the modified probe to detect a target nucleic acid. See especially Column 4, beginning at about line 36.

RESPONSE TO APPLICANT'S AMENDMENT/ ARGUMENTS

6. Applicant's arguments with respect to the claimed invention have been fully and carefully considered but are not deemed to be persuasive.

The applicant traverses the rejection in part arguing that Backman et al. do not teach the AP site probe as now recited in Claim 24. The examiner respectfully disagrees for at least the reasons set forth above against Claim 24.

Art Unit: 1634

CONCLUSION

7. **Claim(s) 1-23, 25, and 29-32** is/are allowable for the reason(s) of record while **Claim(s) 24** is/are rejected and/or objected to for the reason(s) set forth above.

8. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 C.F.R. § 1.136(a).

A SHORTENED STATUTORY PERIOD FOR RESPONSE TO THIS FINAL ACTION IS SET TO EXPIRE THREE MONTHS FROM THE DATE OF THIS ACTION. IN THE EVENT A FIRST RESPONSE IS FILED WITHIN TWO MONTHS OF THE MAILING DATE OF THIS FINAL ACTION AND THE ADVISORY ACTION IS NOT MAILED UNTIL AFTER THE END OF THE THREE-MONTH SHORTENED STATUTORY PERIOD, THEN THE SHORTENED STATUTORY PERIOD WILL EXPIRE ON THE DATE THE ADVISORY ACTION IS MAILED, AND ANY EXTENSION FEE PURSUANT TO 37 C.F.R. § 1.136(a) WILL BE CALCULATED FROM THE MAILING DATE OF THE ADVISORY ACTION. IN NO EVENT WILL THE STATUTORY PERIOD FOR RESPONSE EXPIRE LATER THAN SIX MONTHS FROM THE DATE OF THIS FINAL ACTION.
